

Asthma Management

Because living with asthma has become more common, especially for children, Schuyler Hospital's Cardiopulmonary Department also offers a full Asthma Management Program. We help patients and their families cope with chronic breathing problems, so they can lead lives that are closer to normal.

We offer a full range of services including:

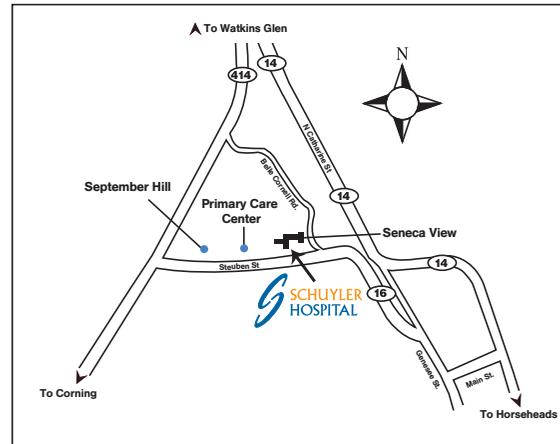

- Drug therapy effectiveness evaluations
- Individualized asthma action plans
- Patient/family training
- Self-monitoring programs

Sleep Disorder Services

Sleep is essential to your good health. However, too much sleep, too little sleep, or falling asleep at the wrong time may be a symptom of a serious health problem. Under the direction of a Board Certified Sleep Physician, Schuyler Hospital's Sleep Lab provides evaluation, diagnostic testing and treatment for sleep disorders. A good night's sleep doesn't have to be a dream.

Sleep disorders include:

- Insomnia
- Irregular sleep patterns
- Narcolepsy
- Sleep apnea and heavy snoring
- Other sleep disorders (recurring nightmares, sleepwalking, sleep talking or teeth grinding)

**To get answers to your questions,
please call (607) 535-7121, ext. 2205 to speak
to one of our specialists.**

When you require tests or therapy, there's no need to add a long car ride to the discomfort of your ailment. Just ask your doctor to refer you to Schuyler Hospital.

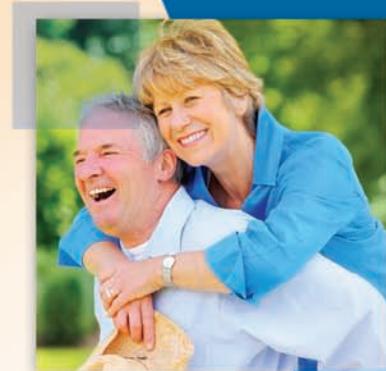

Schuyler Hospital's Cardiopulmonary Services are available 24 hours a day, 7 days a week.

Schuyler Hospital is a healthcare security blanket for the entire family. Located in Montour Falls, we serve the residents of Schuyler County and the surrounding communities. Our long tradition of combining personal care with advanced technology provides a level of trust that leads to outstanding patient satisfaction ratings. From birth through the final years of your life, Schuyler Hospital's blanket of care will leave you feeling warm, comfortable, and secure.

CARDIOPULMONARY SERVICES

We've Got You Covered.

If you suffer from circulatory, breathing, or sleep problems, excellent help is here.

Dizzy spells, coughing, shortness of breath, or a racing heartbeat should not be ignored. Schuyler Hospital's Cardiopulmonary Department provides a variety of outpatient tests to evaluate heart, lung and sleep performance. These tests can detect underlying conditions, helping your doctor to make a diagnosis and start treatment today, to help you breathe easier tomorrow.

Cardiology Testing Services

Cardiovascular disease is a leading cause of death in the United States, but early diagnosis, prevention, and treatment can make a lifesaving difference. Our tests detect underlying conditions, such as arrhythmias and problems with cardiac blood flow, to help your doctor assess the nature and severity of your disease for diagnosis and treatment.

Diagnostic procedures include:

- Echocardiograms
- EKGs
- Holter monitoring
- Rhythm strips
- Stress echocardiograms
- Stress tests

"Everyone from check-in to lab, x-ray and pulmonary testing was warm, friendly, and answered all of my questions - Thanks!"

There's no compromise on quality.

At Schuyler Hospital, we offer professional care that's more personal and compassionate than you'll find elsewhere. A low patient/therapist ratio allows our staff to take their time and treat you more like a friend than a patient. In addition, all of our technicians and therapists are fully credentialed, licensed practitioners in their own specialties.

Awarded a Certificate of Excellence by the American Association of Respiratory Care, placing us in the top 10 percent in the country since 2003.

Pulmonary Testing Services

To diagnose coughing and breathing problems caused by bronchitis, asthma, asbestosis, chronic smoking, and other reasons, Schuyler Hospital offers comprehensive pulmonary function testing services.

Pulmonary function tests evaluate how much air your lungs can hold, how quickly you can move air in and out of your lungs, and how well your lungs add oxygen to the blood and remove carbon dioxide from the blood.

Diagnostic procedures include:

- Blood gas level testing
- Bronchodilation flow rate testing
- Gas diffusion efficiency
- Oxygen saturation testing
- Spirometry for inhalation and expiratory volumes

Respiratory Therapy Services

As part of the treatment for respiratory disorders, your doctor may order various procedures that are available through Schuyler Hospital's Cardiopulmonary Department.

Our respiratory therapists treat all types of patients. They provide temporary relief to patients with chronic asthma or emphysema, as well as emergency care to patients who are victims of a heart attack, stroke, drowning, or shock.

Therapeutic services include:

- Chest physiotherapy
- Incentive spirometry
- Inhaler bronchodilation
- Nebulizer bronchodilation
- Oxygen administration
- Positive-pressure breathing
- Pulmonary drainage
- Ventilator therapy (acute care, CPAP, BIPAP)
